WONDERS OF LIGHT

In a recent classroom presentation, Umer Sir captivated students with a fascinating session on the science of light. Known for his interactive teaching style, he blended theory with hands-on experiments, making the complex topic of light both accessible and exciting for young learners.

The session began with an introduction to light as a form of energy, showcasing its properties of reflection, refraction, and dispersion through visually engaging slides. Umer Sir kept the students actively involved, encouraging questions and relating the concepts to everyday experiences.

The real highlight of the session came through live demonstrations. Students witnessed a laser beam refracting through water and a prism splitting white light into the colors of the rainbow, moments that left the room buzzing with excitement.

The students actively participated in the experiments, and many expressed how much the presentation helped them grasp previously challenging concepts. Overall, the session was an inspiring experience, leaving both students and teachers looking forward to more such interactive lessons in the future.

ICE CREAM ACTIVITY KG 1

Dubai Grand International School's KG1 students recently showcased their creativity in a delightful Ice Cream Craft Activity during their LPD sessions. Guided by their passionate teachers, these young artists transformed simple materials like colored paper and glue into vibrant, mouth-watering ice cream designs, complete with chocolate scoops and rainbow sprinkles. Beyond the fun, the activity helped develop essential skills such as fine motor coordination, teamwork, and problem-solving. It was a perfect blend of play and learning.

A big applause to the LPD teachers for designing such an inspiring activity, where fun and learning go hand in hand. This event is just one of many that reflect DGIS's mission to shape future innovators, one creative adventure at a time!

GENERAL ASSEMBLY AND DEPARTMENT ASSEMBLY AT DUBAI GRAND INTERNATIONAL SCHOOL

DUBAI GRAND INTERNATIONAL SCHOOL RECENTLY CONDUCTED ITS GENERAL ASSEMBLY, WHERE STUDENTS PARTICIPATED IN DRILLS, PRAYERS, AND INSIGHTFUL DISCUSSIONS. THE ASSEMBLY BEGAN WITH A DUA RECITED BY IQBAL SIR, FOLLOWED BY A THOUGHT OF THE DAY AND ENGAGING NEWS UPDATES THAT SPARKED STUDENT CURIOSITY.

FOLLOWING THE GENERAL ASSEMBLY, INDIVIDUAL DEPARTMENT ASSEMBLIES WERE HELD, ALLOWING EACH DEPARTMENT TO DISCUSS SPECIFIC GOALS AND INITIATIVES. THIS COLLABORATIVE EFFORT STRENGTHENED COMMUNICATION AND TEAMWORK AMONG STUDENTS AND STAFF, FOSTERING A POSITIVE LEARNING ENVIRONMENT WITHIN THE SCHOOL COMMUNITY.

FUNDAMENTAL RIGHTS

Grade 6th: Presentation on fundamental rights.

Fundamental rights primarily protect individuals from any arbitrary state actions, but some rights are enforceable against individuals. For instance, the Constitution abolishes untouchability and also prohibits begar. These provisions act as a check both on state action as well as the action of private individuals. Today a presentation session was held in grade 6th on fundamental right at Dubai Grand International school. This day made the students super excited and joyful. The students were prepared under the guidance of Mr. Amir one of the dedicated teachers of Dubai Grand International school. The students came to know about various things related to fundamental rights. This presentation was a chance to showcase their public speaking and critical thinking. Presentation helps students to build a confidence in expressing their point of views and opinions. Meanwhile presentations not only help them in developing their public speaking but also helps them practice effective communication that will help them throughout their journey. In conclusion grade 6th had a productive and an enriching day filled with joy, learning and it helped them build confidence. Teachers look forward for more class presentation like this one in upcoming days!
