		 <p>A trip to Dachigam National Park and Wildlife Sanctuary. Dachigam' literally means “Ten Villages”, which stands for the number of villages that were relocated to facilitate its creation. Dachigam was declared a National Park in 1981 and since then it has been home to many rare species of animals within its premises. The sunny weather indeed resonated well with our excitement and energy after a brief rendezvous with the rain and clouds en route. The trip began with mandatory selfies and photos near the eye catching dummy Hangul and bulletin boards showcasing the rich heritage, flora and fauna of the park installed by the wildlife department at the entrance of the park followed by exploring the captivated animals – Leopard, Black Bear and Brown Bear. Thereafter students went towards the Wildlife Rescue and Rehabilitation Centre followed by a visit to Laribal Trout Fish Farm. Later on students went towards Nature Interpretation Centre followed by a brisk trek to Numbal Beat and Mahadev Beat. A brief halt at Wildlife Research and Training centre before we started descending the track. It seemed as if nature was on exhibition and we were the blessed spectators. Dachigam national Park is extremely rich in Wild Cherry, Pear, Plum, Peach, Apple, Apricot, Walnut, Chestnut, Oak, Willow, Poplar, Chinar, Birch, Pine and Elm knitted a beautiful and unquestionable ecosystem of biodiversity. A well-known habitat for the Hangul (Kashmir Stag), Musk deer, Brown Bear, Leopards, Jungle Cats, Himalayan black bear, and a few species of wild goat.</p> <p>A Trip to Harwan Garden for recreation and lunch which resembles a fairy land straight out of a Disney story. Set against the backdrop of majestic mountains, the Harwan Garden offered the DIPSITES a site of unadulterated beauty and complete nirvana. Its lush greenery, blossoming flowerbeds, tall chinar trees and sprawling lawns make it a prime picnic spot. It boasts a neat and clean concrete pathway with arched gates that are adorned with roses.
