#### Section A (Reading Comprehension) (5 Marks)

**Q1. Read the following passage and answer the questions that follow: ( Attempt Any Five)**

Writing has come full circle -from tablet to tablet. Now we have databases in the computer and applications that organize and record data. They have replaced the ancient accountant's system. It has been an exciting journey of human enquiry and invention. Without written communication, the human world could not have existed. Aptly, the word 'tablet' comes from the ancient Hebrew word tebel or 'the world'. Linguists also think it came from the Latin tabula meaning 'board' or 'flat table.' It was in 1984 that we got the term tablet computers for the exciting new 'cool' tool of human communication. Since then tablets have become man's best digital friend. Now, touchscreens have transformed the way we put our thoughts down on devices. Kids born a few years ago probably have never seen a mobile phone with a keypad. Technology continues to evolve at an unimaginable pace.

#### Section A (Reading Comprehension) (5-Marks)

**Q1. 1. Read the following passage and answer any five questions given at the end. (05 Marks)**

Lila loved art class more than any other subject. Her current project was drawing a bright red fire truck. She reached into her pencil case to grab her favorite red crayon, but it was gone! Lila searched her desk, her chair, and even her shoes, but the crayon was nowhere to be found. She felt tears well up—she needed that color to finish the truck’s wheels and siren.

Her friend, Samir, who sat next to her, noticed Lila’s unhappy face. “What’s wrong?” he asked softly. Lila explained her problem. Samir quickly checked his own supplies. He didn’t have a red crayon, but he did have a beautiful, sharp red pencil.

“Here,” Samir said, pushing the pencil toward her. “You can use this. It’s almost the same color.” Lila’s face brightened immediately. She thanked him and carefully used the red pencil to finish her fire truck. Because of Samir’s kindness, Lila’s drawing was the best in the class. From that day on, Lila and Samir knew they were the best of friends, always ready to help each other out.

#### **Questions:**

#### Section A (Reading Comprehension) (5- Marks)

**Q1. Read the following passage and answer the questions at the end.(Attempt Any Five)**

The Banyan tree is one of the most amazing and largest trees in the world. It is known for its incredible size and the way it grows. Unlike most trees, the Banyan tree doesn't just grow one main trunk. As it gets older, it grows aerial roots from its branches. These roots hang down towards the ground. When they reach the soil, they grow strong and thick, turning into new, supportive secondary trunks.

Because of these many trunks, one single Banyan tree can spread out over a huge area—sometimes as big as a small forest! In India, where it is the National Tree, the Banyan is highly respected. People often use the shade under its wide canopy as a natural community meeting place. Its leaves are large, and its fruit is small and red, which birds and monkeys love to eat. The tree can live for hundreds of years, making it a powerful symbol of eternity and strength.

“The Mighty Banyan Tree”

#### **Questions:**

- I. What is special about the way a Banyan tree grows, unlike most other trees?
- II. What are the roots called that grow down from the branches of a Banyan tree?
