SHAHABUDDIN MEDICAL COLLEGE

Acquaintance of The Founder

Mr. Mohammed Shahabuddin is a renowned reputed and an eminent businessman with high credentiality and preserves the highest level of commitment towards social reforms and to alleviate the sufferings of humanity.

Mr. Mohammed Shahabuddin started his education in his village school and subsequently completed his education with dignity and honor from national university. While his student life he observed with deep empathy that the village people mostly of under privileged community were suffering from lot of distress, disease and deprivation, which virtually insisted him to do something for those huge uncared population of the country. He believed that goal and excellence cannot be achieved by only money and materials but also requires skill human resources.

The sympathetic response to the sufferings continuous attachment to humanitarian & social works and commitment to meet the social needs and the most sensitizing utterance of his mother in dying bed expressing her desire to her beloved son to set up a Hospital for treatment of poor & distressed people of the country, which inspired him a lot and ultimately established **SHAHABUDDIN MEDICAL COLLEGE & HOSPITAL** with a vision to develop competent doctor for treating the sufferings of all over the world.

Alhaj Mohd. Shahabuddin
The founder & Hon'able Chairman
Shahabuddin Medical College & Hospital

Message From the table of **Managing Director**

Welcome to Shahabuddin Medical College.

It gives me a great pleasure to welcome you, on behalf of Shahabuddin Medical College Management and Staffs' we invite you to discover how Shahabuddin Medical College is contributing in the world of objective to become a knowledge-based society by advancing our vision and mission to produce nationally and globally need base competent doctors to serve the sufferings of the world

I feel privileged being the Managing Director of this Medical College. I still have the fresh memories of the horrifying experiences during the days of our struggle to establish this college. There were many odds standing against our strong vision and determination of establishing a Medical College to produce competent manpower for the health sector as well as providing quality health services.

As the Managing Director of this Medical College, I make this personal assurance that the academic aspects, all comforts and safety of the students are our topmost priority. This College offers the best opportunity to aspiring students to fulfill their dream of getting world class education and training in health sciences.

We welcome all those committed students to our college who have dreams to become respected citizens of their country and smile from their heart when a life is saved. We hope this prospectus will provide required information address to your queries.

Faisal Al Islam
Managing Director
Shahabuddin Medical College & Hospital.

From the Desk of Principal

Shahabuddin Medical College is one of the leading Non-Government Medical College situated in Dhaka city. The Medical College is situated in a calm, quiet and congenial academic environment of sophisticated area at Dhaka, Gulshan Model Town, established by Mr. Alhaj Mohammed Shahabuddin who is devoted to mankind and to alleviate human sufferings.

Our Specious lecture theatres and sufficient class rooms with all amenities help students to get proper education and to build up their personalities with the help of highly qualified and eminent teachers. The 500 bedded teaching hospitals situated besides the academic building fully equipped with the Modernized Instruments and Machineries that helps students for clinical teaching.

We utilize a range of monitoring system to ensure that the quality of the course is maintained at the highest standard for producing excellent quality of MBBS doctors.

We teach about ethics and morality so doctors would have minimum ethical attitude towards patients and to the society.

We expect our students will abide by the rules and professional ethics to show wonderful performance.

• Why Study In Shahabuddin Medical College?

- We have all the right reason: the International cultural diversity, quality and recognition, industry-relevant courses, holistic learning experience, better employability, adequate facilities, and culture of lifelong learning.

• Practical Training:

Shahabuddin Medical College students are encouraged to participate in practical training or industrial attachments even where this component is not compulsory for their programmed. We believe that industrial attachments serve at least dual purposes: giving the students an opportunity to practice what they have learnt in class and secondly, to give them a feel of the real-world working environment.

• Value-Added Services:

SMC has established various departments and units, which include the following ones, to provide value-added services.

• International Development Unit:

One-stop service centre for you as an international student.

Assisting you all the way from application to immigration procedures.

Shahabuddin Medical College

- **International Code of Ethics**

All medical students should follow the international code of Medical ethics. Medical ethics should be the part and parcel of a Medical student as well as a doctor. The oath Hippocrates Geneva declaration must be known to the students of Medical science.

- **The Oath of Hippocrates.**

I swear by Apollo, the Physician and Aesculapius and Health and All? Heal and all the gods and goddesses. That according to my ability and judgment, I will keep this Oath and this stipule to reckon him who taught me this art equally dear to me as my parents, to share my sushi with shim and relieve his necessities if required.

To took upon his offspring in the same footing as my own brothers and to teach them this art, if they shall wish to learn it, without fee or stipulation.

And that by percept, lecture and every other mode of instruction, 'I will impart a knowledge of the art to my own sons and those of my teachers and to discipline bound by a stipulation and oath according to the law of medicine, but to none others.

I will follow that system of regimen which, according to my ability and judgment, I consider of the benefit of my patients and abstain from whatever is deleterious and mischievous. I will not deadly medicine to any one if asked, nor suggest any such counsel and in like manner I will not give to a woman a Presser to produce abortion.

With purity and with holiness I will pass my life and practice my Art.

I will not cut persons laboring under the stone, but will leave this to be done by men who are practitioner of this work.

Into whatever houses I enter, I will go into them for the benefit of the sick and will abstain from every voluntary act of mischief and corruption and further from the seduction of females or mates, of freedom and slaves.

Whatever, in connection with my professional or hear in the life of men, which ought not to reckoning that all such should be kept secret.

While I continue to keep this Oath inviolate, may it be granted to me to enjoy life and the practice to the art, respected by all men, in all times: But should I trespass and violate this Oath, may reverse me by lot.

- **Declaration of Geneva**

The world Medical Association in Geneva adopted in September 1948, the following declaration which is intended to be sworn when a doctor is admitted as a member of medical profession:

I solemnly pledge myself to consecrate my life to the service of humanity I will give to my teachers the respect and gratitude which is their due.

I will practice my profession with conscience and dignity. The health of my patient will be my first consideration.

I will respect the secrets which are confided in me

I will maintain by all the means the honor and noble tradition of the medical profession

My colleagues will be my brothers and sisters

I will not permit considerations of religion, nationality, race party politics or social standing to intervene between my duty and my patient.

I will maintain the upmost respect for human life from the time of conception

Even under threat I will not use my medical knowledge contrary to the laws of humanity

I make these promises solemnly, freely and upon my honor.
